

KS2 BPSS INCLUSIVE VIRTUAL CHALLENGE

How many times can you cross the line in 30 seconds?

Challenge details:

This challenge is aimed at SEND students who are unable to participate in the skipping challenge. Please choose which option is most appropriate for your pupil's needs.

Option 1

Lay the skipping rope out along the floor. The pupil sees how many times they can step over the skipping rope. "1" is counted when both feet cross the rope.

Option 2 (wheelchair users)

Set two markers/cones out to demonstrate a gate. They must pass through the gate as many times as they can in 30 seconds. This can be completed by an electric wheelchair, self-propelled wheelchair or by a TAs assistance.

How to enter

Please submit the top 5 pupils across KS2 and their results via the [**BPSS website**](#). Please make sure a member of staff has validated the scores before submitting.

IMPORTANT: Each skipper can only appear once on your results!

Deadline

Please enter results online by 12pm on Thursday 28th March 2024
